Windows to the Future

As we welcome our New Year, we also welcome students to a warm learning environment in the four classrooms on second floor in St. Patrick's School Building. Each classroom has four windows that have been replaced. The lower section of the window that opens up even has a screen on it. No more birds will enter the classrooms!

Over the past few years St. Patrick's Parish has undertaken substantial general repairs to ensure the school building is structurally sound. We are now focusing on window replacements throughout the school building. The school itself is over 90 years old. We hope it lasts another 90 years.

Several groups will benefit from the replacement of the windows. John XXIII Educational Center's students are scheduled from 4:00-8:00 p.m. Monday through Thursday and some events on Friday. The students enrolled in St. Patrick's Christian Formation Program use the second-floor classrooms on Saturdays. The St. Patrick's Youth Group uses the building. Parent education courses are offered through John XXIII Educational Center's collaboration with University of Wisconsin's-extension programs.

We are very grateful for the donors who believe in the importance of creating a warmer environment amidst the cold Wisconsin winters.
